SKILLS

Languages – *Advanced in Swift, Python; Proficient in Java, HTML/CSS, SQL*

Technologies – *Xcode, CocoaPods, RxSwift, Braze, IntelliJ*

EXPERIENCE

The Walt Disney Company, Burbank, CA – *Software Engineer*

AUGUST 2018 – PRESENT

- Lead a multi-branded iOS/tvOS streaming platform including ABC, ABC News, DisneyNOW, Freeform, FXNOW, and National Geographic
- Consolidate 20 apps into one codebase through architecting generic solutions, making the platform easily maintainable and scalable
- Built an internal cross platform script that automates manual updates that can take up to an hour or more, to a few seconds
- Collaborate closely with cross-functional teams to deliver high quality solutions that result in guest satisfaction and apps that have below 1% crash rates
- Mentored interns by giving advice on technical solutions, setting up weekly learning sessions, and helping them expand their professional network
- Create a positive and fun work environment, as a founding member of the Culture Club, through planning team events such as escape rooms, happy hours, book club, and more

Intuit, Mountain View, CA – *Software Engineer Intern*

MAY 2017 – AUGUST 2017

- Built an internal tool that helped reduce the amount of time required to diagnose and resolve errors during the batch data ingestion process
- Extracted crucial data from output files and calculated historical statistics by creating a web dashboard using Bootstrap to improve ingestion phase efficiencies

EDUCATION

University of California, Berkeley – *B.A. Cognitive Science, Computer Science Minor*

AUGUST 2014 – MAY 2018

INTERESTS

Rock Climbing, Mountain Biking, Snowboarding, Graphic Design, Hot Cheetos
